RE: South Carolina Board of Podiatry Examiners- Letter of Intent

Board members and examiners,

I would like to express my intent to serve on the Board of Podiatry Examiners of South Carolina. I am motivated and excited about this opportunity.

I completed my undergraduate degree in South Carolina and I knew I would someday return. While I attended Barry University in Miami Shores, Florida I had several externships in SC as it has been my intent to serve South Carolina as a physician from the word "go." After residency, I moved to SC for my first position. I have never regretted the decision to move here despite our well-known scope limitations and regulations. I think that I can be a voice to other residents of encouragement as well as continue to bring dynamic podiatric medicine and surgery to our patients. A young, eager intelligence will certainly progress South Carolina's podiatry.

The role of an examiner is that of importance and I will take the utmost pride and responsibility to aid in the determination of those that will be an asset to our profession and our community.

Sincerely,

A handwritten signature in black ink, appearing to be 'JL Baker', with a long horizontal flourish extending to the right.

Dr. Jordanna Baker

RE: Statement of Intent and biography for SC Board of Podiatry Examiners

To Whom it may Concern:

I would like to express my willingness to serve on the SC Board of Podiatry Examiners.

I currently practice in Florence and Hartsville. I am from South Carolina, graduated from Lake City High School, then Francis Marion University before going to medical school in Cleveland Ohio. Upon completion of my Doctorate of Podiatric Medicine from OCPM, I then completed a 3 year surgical residency with University Hospital Systems and The Cleveland Clinic before returning home to this great state to enter into private practice.

I am actively involved in the SC Podiatric Medical Assoc and American Podiatric Medical Assoc. I'm Board Qualified by the American Board of Foot and Ankle surgery (anticipate certification in 2016). I'm also on the Board for Holly's Hope, a charity organization that provides support to patients and their families suffering with leukemia.

It would be an honor for me to serve my state on the SC Board of Podiatric Medical Examiners and would also be an honor to serve on the board as the first female member.

Thank you for your consideration in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Misty Lee', written over a horizontal line.

Misty Lee, DPM

## **Walter H. Singleton, DPM**

**Post Office Box 951 Beaufort, South Carolina 29901**

### **Bio: Walter H. Singleton, DPM**

Dr. Singleton is a native of Beaufort, South Carolina. He attended Beaufort County Public Schools and graduated from Beaufort Hight School.

Dr. Singleton obtained undergraduate degrees from the Citadel (Biology), and The Medical University of South Carolina (Pharmacy) in Charleston, South Carolina. He received his medical degree from The Ohio College of Podiatric Medicine (now Kent State University) in Cleveland, Ohio. Residency was completed at the Veterans Administration Medical Center in Huntington, West Virginia.

Dr. Singleton is dual board certified by the American Board of Multiple Specialties in Podiatry (**ABMSP**) in Primary Care and Treatment of Diabetic Foot Wounds. A special interest of his practice involves neuropathy and pharmacology.

Over the past twenty years Dr. Singleton has worked in many aspects of podiatry including: Veterans Affairs, Military Medicine, Correctional Medicine, group practice and private practice.

Dr. Singleton is active in church and civic functions and is a member of Phi Beta Sigma Fraternity, and Alpha Gamma Kappa Podiatric Fraternity.

Dr. Singleton practices in Beaufort at Coastal Foot Care and in Charleston at The Foot Institute, LLC.

Dr. Singleton is married and has three adult children.
